

Sprayfett

Product Description:

Hagmans Sprayfett is a liquid grease which forms a solid skin immediately after spraying. The grease, which has exceptional adhesion and lubricating properties, penetrates corners, splits and cracks. Does not run. Does not become brittle at low temperatures. Waterrepellent, protects against corrosion and damp.

Range of Applications:

Hagmans Sprayfett is used as an ordinary lubricant on cars, in workshops, in the home etc.

Technical Data:

Base material: Mineral oil
Density: Approx. 0.90 g/cm³
Flash-point: Approx. -10°C
Drip-point: +175°C
Fire class: 1
Shelf life: 1 year
Contents: 400 ml

Directions for Use:

Before spraying, shake the can well for about 1 minute.

Application:

Hold the spray-can upright when spraying. After spraying is finished, invert can and press in the valve until only propellant is released. This will prevent blocking.

NOTE! Do not spray towards a naked flame or hot objects.

Packs:

Article number:
11670 6 x 400 ml. (spray-can)

Protection:

According to Material Safety Data Sheet.
