

Hagmans Spraylim

Product description:

Strong and permanent contact adhesive that is easy to apply.

Range of Applications:

Hagman's Spray Glue for permanent adhesion. Developed for gluing paper, cardboard, wood, textiles and various types of plastic.

Directions for Use:

The surface must be clean, dry and grease-free.

Clean with Hagmans Silicone Remover for example.

Temperature at application: +15 to + 25°C.

For permanent adhesion, both parts to be glued should be treated. Allow to dry for 5 to 10 minutes.

When treating porous surfaces, Hagman's Spray Glue should be applied in several layers.

Should not be used on polystyrene foam, cellular plastic or vinyl plastic.

Aim the beam away from the face and adjust the spray width.

Keep the can about 12-18cm from the surface to be sprayed.

After use, turn the can upside down and spray the valve empty.

Characteristics:

High initial strength.

Easy to apply.

Controllable spray image that eliminates spray mist.
