Product description:

Hagmans Interiör & Textilrengöring cleans and removes stains from the vehicle upholstery, carpets and other furnishings. Could be used on most materials that can withstand water in your car, motorhome, caravan, boat or at home.

Range of Applications:

Hagmans Interiör & Textilrengöring could be used for cleaning and reconditioning dashboard, centre console, door sides, mug holders, steering wheel, luggage compartment and plastic panels in the car.

Also good for cleaning and reconditioning all hard, non-sucking surfaces inside the caravan, camper and boat for example dining table, shelves, kitchen benches, toilet area, cockpit and cabin etc.

Hagmans Interiör & Textilrengöring works well for cleaning and reconditioning eg. seats, child seats, sofas, cushions and armchairs inside the car, camper van, caravan and boat or cushions for garden furniture. Gentle on plastic, rubber and lacquered surfaces.

Could be used on most water-resistant materials.

If in doubt, test the product in a hidden place.

Base material

Surfactants and
alcohols

Instructions:

Textiles or clothing:

Spray Hagmans Interiör & Textilrengöring on the textile you want to clean.

Let the foam work for a short time and then wipe clean with Hagmans Dual micro fiber cloth to collect dirt.

We recommend that you work the entire surface on the car seat and not just the stain you want removed, this to avoid getting lighter stains where you cleaned.

For coarser soiling or hard-seated dirt, spray plenty of Hagmans Interiör & Textilrengöring and then use a textile cleaning machine or vacuum cleaner to soak up the dirt. Repeat treatment if necessary.

Hard surfaces:

Spray Hagmans Interiör & Textilrengöring on the surface you want to clean.

Use a Hagmans Dual micro fiber cloth to wash with and a new, dry one to dry afterwards and polish with.

For coarse soiling or hard-sitting dirt, spray on plenty and allow the agent to work for about 2 minutes before wiping with a microfiber cloth.

Other:

At Hagmans you will also find a complete program of polishing and varnish protection products for the entire car.
