

Etchant

Product description:

Etchant is an effective acidic stripping agent for metal surfaces.

Areas of use:

Etchant is primarily used to prepare newer galvanized metal sheets and to remove layers of oxide (white rust) on metal prior to painting. The product can also be used to remove lime and rust on acid-resistant surfaces.

Preparation:

Wash the surface with Paint Wash Roof/Facade

Instructions:

Apply the Etchant with a paint brush. Let the substance work for approx. 15 min.; rub extra if necessary. Then remove the substance thoroughly by rinsing with water. Let the surface dry before applying paint.

Consumption: 5-7 m²/litre

Other information:

Store frost-free. Pot life is 2 year.

Packaging:

55911 1 litre
55913 4 litres
55914 10 litres
