

Produktinformation

SPECIAL Graffiti Remover

Ideal for: removing graffitis and wrong coatings on substrates like cement, brick, concrete, stone, wood, glass and metal.

Advantages:

- easy application
- high coverage

Spraying distance: approx. 20 cm from surface to be cleaned

Drying times: do not let dry!

Application: Let soak for 3 – 5 minutes. Brush substrate progressively to remove any graffiti and dirt. Rinse generously with water.

Repeat application if required.

Warning: If eye contact has occurred rinse immediately with plenty of water and seek medical help. After use, wash hands well.

The safety instructions on the aerosol must be observed carefully!
